

*SOWING THE SEEDS OF LEARNING, THROUGH
COURAGE, COMPASSION AND COMMUNITY.*

Personal, Social and Health Education (PSHE)

INTENT:

At Cranham C of E Primary School in PSHE we are aiming to give our children the breadth of knowledge, understanding and emotions to enable them to play an active role in society. We want children to have confidence in their own thoughts and beliefs, and to feel that anything is possible if they put their minds to it. We promote respect and tolerance for all life choices. Giving children the knowledge and skills to stay safe and healthy is a high priority, and children are equipped to make informed decisions. In the Early Years Foundation Stage (EYFS) pupils focus on recognising their emotions and developing positive relationships with both adults and their peers. In addition to our PSHE lessons, we aim to develop the children's awareness of national topics through additional focus days and weeks.

IMPLEMENTATION:

Our whole curriculum is shaped by our school vision, which aims to enable all children, regardless of background, ability and additional need to flourish and become the best version of themselves that they can possibly be. We teach using the National Curriculum PSHE guidance as a basis. We have used resources from the PSHE association alongside this, to form the basis of our two-year rolling plan. This is supported by clear skills and knowledge progression throughout the phases. Staff use a 2 year rolling plan which is split into three phases, to match our school class structure. Training is provided both internally, through staff meetings, and externally, through local providers including Gloucestershire Healthy Living and Learning and Stroud Association of Schools. Staff use the Vocabulary for Experts approach, and these words are shared and discussed as appropriate through lessons and topics. Any additional sessions, for example linked to current events, are incorporated into our Collective Worship programme. Visitors and experiences complement our PSHE curriculum, by offering additional learning opportunities for the children.

IMPACT:

Our School vision shapes our aspirations for the children in terms of PSHE, with the three values of courage, compassion and community. By the time children leave our school, they will have a willingness to try new things, push themselves and persevere. They should be able to describe how to stay safe, healthy and how to develop good relationships. They

should have a strong self-awareness, interlinked with compassion of others. Finally, we work hard to ensure that they have an appreciation of what it means to be a positive member of a community.
